

twice light

Twice consists of two lit handblown glass spheres connected by a cylindrical brass armature. Two different diameter spheres make for an asymmetrical light: one sphere is 4 1/2" diameter, the other is 7" diameter. The glass spheres each feature an off-center double-dipped fire-polished mouth where the piece is broken from the glass master's pipe, making each unique. The central cylinder houses the sockets, with the bulbs accessible by unthreading the glass from the socket.

- Two sockets - 120V E12 (candelabra) 60W max
- 6 ft (180cm) black fabric-wrapped cord with in-line switch and wall plug
- Two metal finishes available: dark oxidized / brushed brass
- Available in two glass color combinations: all white / two color transparent smoke palette
- Bulbs included (25W incandescent)
- All glass dimensions are approximate - hand blown glass dimensions vary by nature and intent
- Hand blown in the Czech Republic

glass colors: smoke palette-PSM white-WHT

- LT190 - - -** **twice** light dark oxidized 16" W (41cm)
- LT190 - - - B** **twice** light brushed brass 16" W (41cm)
